Report of the School Board of Newbury.

For the year ending Feb. 15, 1908.

The School Board of the school district of Newbury, respectfully submit the following Report.

In reviewing the past year we find that the Truant Officer reported the number of children between the ages of five and sixteen years, by the enumeration of Sept. 1907, were eighty-six.

In the financial school year which is now closed, we have endeavored to have twenty-eight weeks of schooling in each of the six different schools maintained in the school districts.

The supplies having been furnished each school for the year.

There are also supplies on hand at the present time to be used at the next term of school, and trust all pupils will remember that they are instructed with the care and use of property that is not their own, and therefore use all town property loaned them, in every way satisfactory to the town.

We hope that the schools have been satisfactory to all in town.

We have tried to do just as well as we could for the scholars' instruction, and when we step out of this office that whoever takes our place will do as well or better than we have.

To the teachers of the several schools, the School Board desire to tender their hearty thanks, and also hereby to express their high appreciation to the citizens of the school district for all acts of kindness received from them in the past year, in promoting the progress of education.

Financial Report of the School Board and Treasurer.
